

MANGO

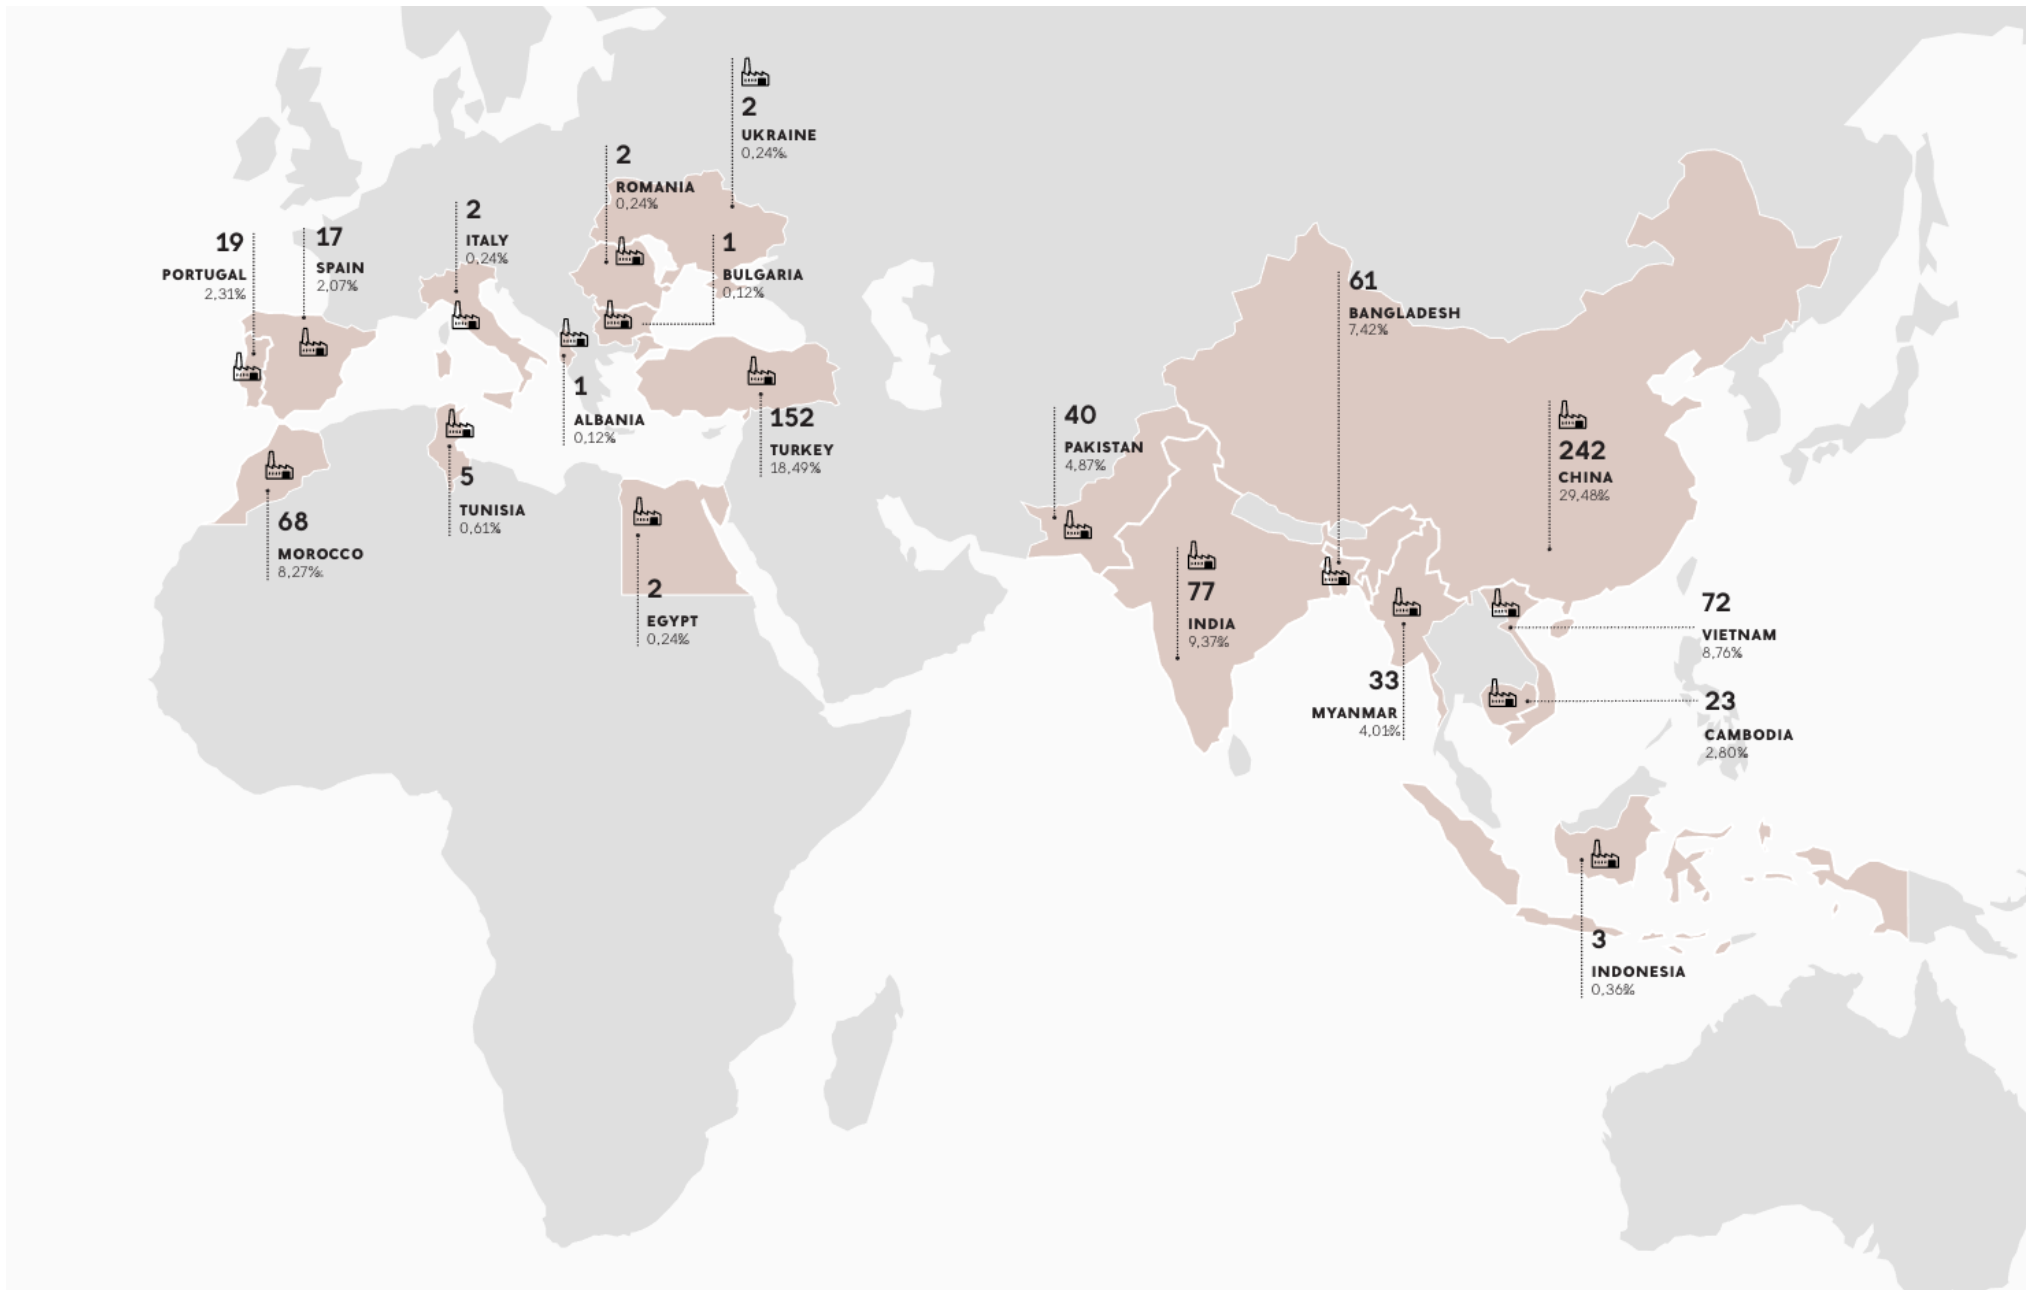

MANGO FACTORY LIST

Within MANGO's commitment to sustainability, it is essential to establish responsible management of our supply chain which, together with the participation of certain stakeholders, contributes to transparency and is the key for the due diligence towards our suppliers. We prioritize a trustful relationship with them, ensuring that they are aligned with our own commitments and helping to ensure the human rights of workers and strengthen the textile industry globally.

Aware of the importance of being transparent and providing access to information to ensure this commitment, we release on our website the list of level 1 (tier 1) factories that have produced for MANGO in the current year 2020.

Thus, MANGO responds to the commitment acquired with CCOO Industry in the "Global Bilateral Agreement to guarantee international standards in MANGO's supply chain" and to the requirements of the Transparency Pledge Standard, which urges brands to make public the name, address and other details of the production factories.

It should be noted that MANGO does not own any factories and none of them works exclusively for our organization. Some of them might be used discontinuously in time depending on the characteristics of the product, so for this reason, the list will be updated at least twice a year. Besides, the data provided on our supply chain will be progressively extended.
